HIGH GRAFICA

Select Order

Order Made Product

From process#100, our original brand built on the concept of "Individuality and Sophistication," we offer digital-print designs that let you experience the brand's worldview with greater freedom and dynamism. HIGH GRAFICA "Select Order" is a service where you can order digital-print wallpaper simply by choosing an item number from our dedicated content catalog. Ordering is easy because the design layout size and recommended base material are predetermined. For other design content and ordering methods for HIGH GRAFICA "Select Order," please refer to p. 222.

*For important points to note regarding orders, please visit the product details page on our website.

You can view the full lineup of digital-print design content from process#100 by scanning the QR code on the right.▶

TH 34051

Deep Drape

01

Biomass Mark certified vinyl wallpaper that uses a plasticizer made primarily from vegetable oil

By eliminating petroleum-derived plasticizers, it helps conserve fossil resources.

02

Safe and Secure: Phthalate-Free*

Phthalate plasticizer-free. Use with greater confidence and safety.

03

A non-fluorine-based water repellent with a lower environmental impact

A water repellent with a lower environmental impact is used, providing the same water repellent performance as conventional products.

04

Consistent workability

While being a sustainable wallpaper, it offers the same workability as general vinyl wallpaper.

What is the Biomass Mark?

The Biomass Mark is a symbol for environmentally friendly products that utilize biological resources (biomass). It is certified by the Japan Organics Recycling Association (JORA).

Eco Reflect

Functional wallpaper that brightens a room is even more powerful

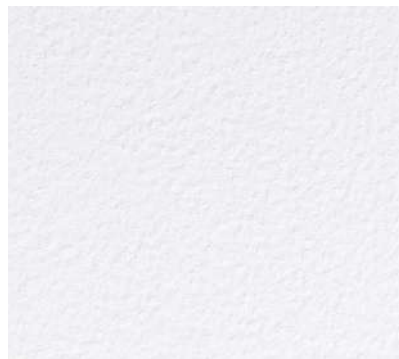

Eco Reflect is a functional wallpaper designed to make interior spaces brighter through a special formulation with high light reflectance. This product can be expected to provide energy-saving benefits by reducing the number of lighting fixtures needed in offices and allowing lights to remain off during the daytime. It is compatible with a wide range of lighting types, including fluorescent, incandescent, and LED light sources. The light reflectance of the previous Eco Reflect has been further improved, resulting in approximately a 7% increase in illuminance and power-saving performance. Additionally, a new super durable Eco Reflect specification offering superior surface strength is now available.

*Eco Reflect is patented in Japan (Patent No. 6144953)

*The above test results are measured values and are not guaranteed values.
*The functional properties and test results described on this page are based solely on Japanese national standards or our own internal specifications, testing methods, and criteria.
We have not conducted any testing based on the standards, testing methods, or criteria of other countries or regions where the product may be sold or used.

MEGURe WALL

Eco-Friendly Wallpaper “MEGUReWALL”
— made from recycled resources

Wood Recycling

HINOKI

TH 34231-34234

Offcuts from processing cypress wood are crushed and reused as the surface material for wallpaper.

Resin Recycling

NADARAKA / DANDAN

TH 34235-34238 / TH 34239-34240

Resin offcuts from vehicle cushioning materials are repurposed as surface materials. Recycled materials are also used for the backing paper.

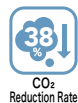

Rice Husk Recycling

ZARARI / JOU

TH 34241-34245 / TH 34246-34250

Rice husks produced during the rice threshing process are finely crushed and reused. This wallpaper features a distinctive matte texture with a natural, grainy feel.

MEGUReWALL helps reduce CO₂ emissions and supports the realization of a decarbonized society

Using recycled materials reduces CO₂ emissions throughout the product lifecycle.

Indicates the product's recycled material ratio.

*The CO₂ reduction rate shows a value calculated by comparing a representative MEGUReWALL item number with a general vinyl wallpaper.

*The recycled material ratio is a theoretical value calculated based on product specifications.

*The above values are calculated estimates and are not guaranteed values. Minor variations may occur depending on the manufacturing batches and other factors.

*The functional properties and test results described on this page are based solely on Japanese national standards or our own internal specifications, testing methods, and criteria.

We have not conducted any testing based on the standards, testing methods, or criteria of other countries or regions where the product may be sold or used.
