## process#100

process#100 is an original Sangetsu brand that continues to create based on the concept of "Individuality and Sophistication," drawing inspiration from words selected from phenomena, landscapes, emotions, and states of mind that evoke a sense of connection between "myself" and the world. We offer digital-print designs that allow you to experience the brand's worldview more freely and dynamically.

## The presence of the Forest

Designed by Sawako Hoshi

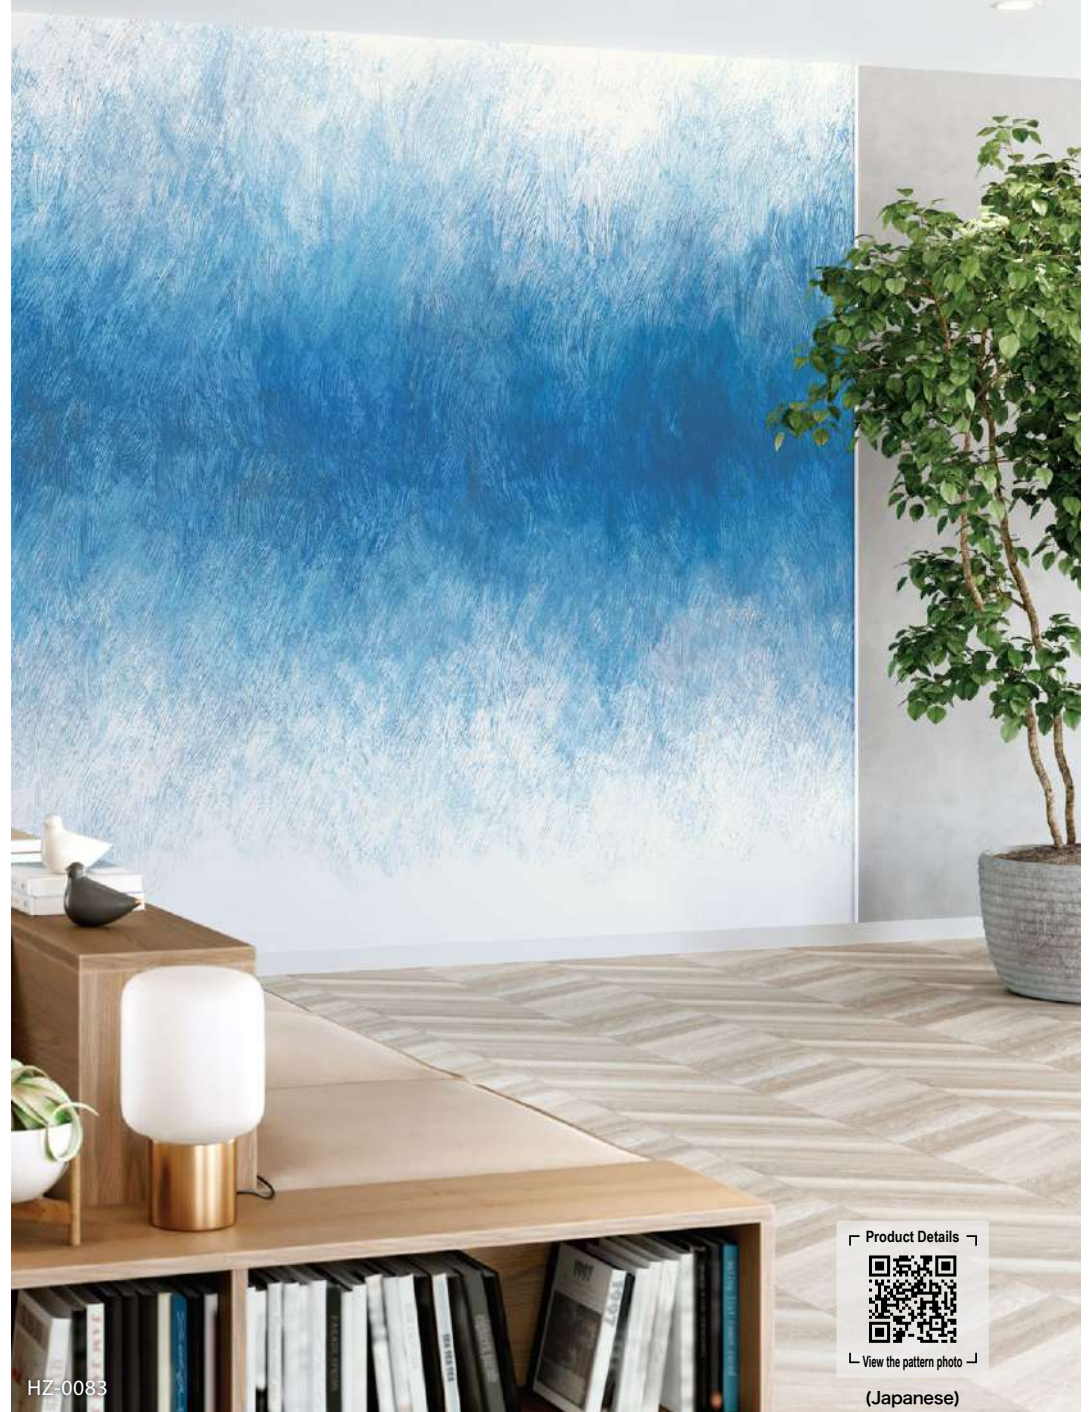

"The design expresses not only the simple beauty of the scenery, but also the subtle presence and scent of nature, as well as the transient moments and emotions—like fragments of someone's memory—all captured within the world of Utsuroi no Mori (Forest of Transience)."

### Sawako Hoshi

Textile designer, based in Helsinki, Finland. She creates works using a crayon scratch technique, focusing on themes of natural beauty and scenery recalled from memory. She launched the lifestyle brand arkietti in 2021.

## An Eternal Moment

Designed by Sawako Hoshi

"I hope to share the 'landscapes' I paint, that carry the thoughts and feelings that arise as I recall a 'scene' from memory again and again. Rather than depicting a specific place, I want to paint 'landscapes' that exist between the concrete and the abstract, where the scenery I have seen resonates with the scenery you have seen."

## Order Process

**Easy**  
Easy Customization

You can select your preferred design from the "GRAFICA COLLECTION," a library of photos, illustrations, and pattern materials and order it in your specified size.

**Full**  
Full Customization

You can order original wallpaper tailored to the concept of your project. Please submit your print-ready data via email, file transfer service, or other suitable method.

### step 01 Base Material Selection

Please select the wallpaper used as the base material from the three options below.

#### ■ Wallpaper

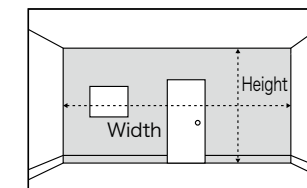

Main Component	PVC <small>環境対応素材 F☆☆☆☆</small>
Specifications	900 mm width
Performance	Anti-Mold
Features	You can select from three textures to match your graphic.

Base Material			
	D-001 Plain Texture	D-002 Canvas Texture	D-003 Sand Texture

### step 02 Size Check

Please measure the total output size. We will calculate the required quantity.

#### ■ Measurement Points

\*Please provide measurements in millimeters (mm).

### step 03 Design Selection

Please scan the QR code and select your design from the "GRAFICA COLLECTION."

(Japanese)

\*All designs and variations can be viewed on the website.  
\*Enlarging the design may cause the image to become grainy.

### step 03 Design Submission

Please submit your print-ready data via email, file transfer service, or other suitable method.

#### ■ Notes on Data Submission for Printing

\*Please submit print-ready data in Illustrator or Photoshop format.  
\*Set the color mode to CMYK and convert all text to outlines.  
\*We recommend image data with a resolution of at least 72 dpi at actual size.

### step 04 Sample Check

After the design is finalized, we will prepare a sample for color confirmation.

#### ■ Notes on Samples

\*For details, please contact our sales representative.  
\*Please note that digital printing cannot reproduce gold or platinum colors.  
\*Solid or dark color fills may exhibit color unevenness.

### step 05 Final Decision and Delivery

Delivery will take approximately 5–20 days after the final print-ready data is submitted.

\*Delivery time is just an estimation and may vary depending on the quantity and specifications. Please contact our sales representative for confirmation of the timeline at the time of your order.

#### ■ Additional Notes

\*When placing additional orders, slight color differences may occur even when using the same data. Please note that this is due to differences in print batches.  
\*Due to copyright laws, we cannot print logos or characters without permission from their copyright holders. We cannot assume responsibility for copyright issues, so please ensure that appropriate procedures are taken as necessary in advance.  
\*Colors may appear different on wallpaper compared to how they look on a computer screen or printed paper. Please keep this in mind when confirming the design and colors.  
\*Strongly rubbing the surface may cause color fading. For cleaning, gently wipe with a tightly wrung cloth.
